FC - Mr. Lyon:

Subject: Recommendation for approval of SWNCC 122/8.

I recommend the approval of the attached SWNCC memorandum primarily because I think it will not have the slightest effect on the ultimate disposition of the documents which it describes.

A previous SWNCC paper approving the movement of the documents from Marburg to Berlin constituted a little more than paper shuffling since action to make the transfer had been taken by General Clay with the approval of GAD in War and FC and CE in State before the ink was dry on the SWNCC paper. In as much as Navy has never shown any interest in the actual information contained in the German Foreign Office documents and since GAD and G-2 have continually professed only a narrow interest in them, I am inclined to think that SWNCC is wasting its valuable time in discussing this matter which is already being handled satisfactorily by the interested divisions in State and War.
